

FEATURED RESOURCE

ORYA Product Catalogue

Products and business opportunities across ORYA's four operational segments, selected with a focus on practical use, responsible materials, sourcing discipline and B2B requirements.

SUSTAINABLE PACKAGING	NATURAL & TRADITIONAL FOOD	SUSTAINABLE HYDRATION	AGRO-WASTE PRODUCTS
-----------------------	----------------------------	-----------------------	---------------------

Our operational segments

 Sustainable Packaging Bagasse containers, clamshells, plates, bowls, meal trays, wooden/bamboo cutlery, compostable bags, paper/courier/protective packaging and custom formats.	 Natural & Traditional Food Selected shelf-stable foods including premium rice, spices, millets, pulses, seeds, dry fruits and traditional products.
 Sustainable Hydration Reusable/refill-oriented hydration formats and responsible serving options assessed for material, application and service model.	 Agro-Waste Products Agricultural-residue and bio-based fibre opportunities, including selected bagasse, rice-husk, areca, banana-fibre and coconut-derived applications where validated.

How ORYA approaches products

- Curated portfolio rather than an undifferentiated marketplace.
- Product specifications and available compliance documentation are confirmed against the selected supplier/SKU.
- MOQ, pack configuration, customization, lead time and commercial fit are considered alongside sustainability.
- New products are introduced selectively as technical, compliance and supply validation is completed.

Cross-segment capabilities

 Custom Packaging Solutions Requirement-based packaging development or sourcing across relevant ORYA segments.	 Special Collection Curated products that fit ORYA's sustainability direction but are not intended to become a separate core segment.
---	--

Portfolio note

This catalogue is a business portfolio overview, not a fixed inventory list. Availability, exact specifications, certifications, MOQ and lead time vary by product and supplier and should be confirmed before order.
