

TECHNICAL RESOURCE

ORYA Product Specification Sheets

Portfolio-level reference sheets for buyer discussions. Exact SKU specifications must be confirmed against the selected product, manufacturer/supplier and applicable documentation before quotation or order.

Sustainable Packaging

 Bagasse containers & clamshells Confirm material composition, size/capacity, compartments, lid fit, stacking, temperature suitability, food-contact information and pack configuration.	 Bagasse plates, bowls & trays Confirm diameter/size, depth, sections, rigidity, pack configuration and applicable food-contact documentation.
 Wood / bamboo cutlery Confirm material/species, length, thickness, finish, packaging, food-grade documentation and applicable certification.	 Compostable bags Confirm dimensions, thickness, capacity, colour, printing, pack size and product-specific compostability documentation.

Natural & Traditional Food

 Premium rice Confirm variety/grade, origin, grain specification, net quantity, packaging, batch/lot, shelf life, storage and applicable food compliance details.	 Spices / dry foods Confirm ingredient/product grade, processing form, net quantity, batch/lot, shelf life, storage, origin and applicable compliance details.
---	--

Sustainable Hydration

 Reusable hydration Confirm material, capacity, closure, food-contact suitability, cleaning/use instructions, durability and packaging.	 Responsible serving formats Confirm material, capacity/size, intended application, food-contact suitability and end-of-life claim/documentation where applicable.
---	--

Agro-Waste Products

Residue-based materials

Confirm feedstock/residue, processing method, material composition, additives/binders where applicable and intended application.

Agro-fibre products

Confirm fibre source, dimensions, performance, food-contact suitability where relevant, end-of-life pathway and available test/certification documentation.

Specification discipline

This document is not a substitute for a supplier/manufacturer datasheet. Final quotations should identify the product/SKU, exact specification, MOQ, pack configuration, lead time and applicable documentation.
